

**1 YARD CONTAINER (240 US. GAL.)**

U.S. PATENT # 60/961,295

**Waste Grease  
Collection**

**Front Loading  
(for waste or recycling)**

## Description:

- ▶ One piece molded with rounded shape to maximize strength and resistance.
- ▶ Double walled unit to prevent leaks and to ease unloading.
- ▶ Can hold up more than 2000lb.
- ▶ Will resist harsh chemicals, petroleum based liquids as well as used hot or frozen cooking grease and oil.
- ▶ Is very easy to clean and will look forever new.
- ▶ Our special resin, PolytrA™, ensures high impact and stress resistance even below -40°F/°C!
- ▶ Containers will not rust, crack, bump or leak, they are maintenance free (no welding repairs or paint touch-ups) during the whole container's life.
- ▶ Made of 100% recyclable plastic.
- ▶ Stackable to optimize shipping.
- ▶ Available in custom colors and permanent molded-in branding (minimum order).
